

NOMAD Practice Cancellation Policy

Summer Practices

Facilitators may choose to officially cancel summer practice due to weather concerns, such as rain, thunder, extreme heat. In this event, the practice session becomes an unfacilitated open practice for any members who decide they want to practice regardless the weather. If members plan to attend, they have been asked to notify the owner of the practice site in advance, to let her/him know they are coming.

Winter Practices

Facilitators may choose to officially cancel winter practice due to weather concerns, such as heavy snows, road closures, or ice. The facilitator will notify Wildwood Barn that practice has been cancelled. In this event, there is no open practice.
