

These guidelines are very important in maintaining a good relationship with Cloverfield Farm:

- There will be an orientation on the first day.
- A release form that needs to be signed by all club members (this release will be standard for anyone that practices there).
- The small Casella dumpster is for dog poop and other garbage. **DO NOT** put anything in the large roll-off dumpster.
- No one is allowed in the environmental challenges course area (to the rear of the arena).
- Lights off when we leave.
- Be sure the wire gate between the arena and parking area is closed when we leave.
- Be sure the wooden gate between the arena and the horse stalls is closed when we leave.
- Parking in the gravel lot - PLEASE DO NOT park in front of the barn doors.
