## June 2 – 3 Seminar with **Jessica Ajoux** @ Cloverfield Farms

Fine tune your agility handling with Jessica Ajoux. “As a handler, Jessica aims to be as precise and theoretically correct as possible. Her style is to stay out of the dog's way and not rush it. She likes to use a balance of techniques and handle in front of the dog as well as behind. She wants to have all the possible tools there are, so that no matter what she sees on the course, she has a solution. When Jessica is coaching her students, it’s important for her to make sure they understand what they are doing and why. This goes for both the handlers and the dogs.”

## April 13-15 Seminar with Karen Holik

“Karen is all about the foundation. She likes to focus on the fundamentals and foundation before focusing on agility training with herself and her students. She believes the foundation you set for your dog is the most important thing there is. “When you have solid foundation training, agility is easy. As a coach, Karen is at her strongest when it comes to building drive and motivation in the dog/handler teams. She aspires to help every dog/handler team be their best on and off the agility course and to have the best relationship possible.”
